Veteran Developmental Coaching

Veteran Transition/ Veteran Development/ Reintegration/ Career & Life Mapping/ Empowerment

Veteran developmental coaching focuses on improving the lives of the Veteran community. While Destinee does offer mentoring and advising, coaching focuses on empowering the Veteran or transitioning service member to take control of their own goals and actions. Besides her own personal experience, Destinee is one of only a handful of coaches in the nation who has received specialized training through Hawk Eye. Currently, it is the only full coach certification program in the USA that trains individuals through a robust curriculum, empowering them to help veterans, reservists, guardsmen and their families successfully manage transitioning from the military to the civilian sector. The Hawk Eye process is based in the latest brain-science, positive and strength-based strategies. The program focuses on the Veteran community and offers tools and strategies for collaborating and supporting virtually anyone who is in a career transition or seeking career and life management assistance.
